

# Station Energétique GOLISI GL1000 1000W

## Description

**GOLISI GL1000 est une centrale ambulante ! Non seulement il peut facilement conduire un t  l  viseur, un r  frig  rateur et un cuiseur    riz lors de votre voyage idyllique en camping-car, camping sur la plage, mais aussi une aide extraordinaire lors d    une panne de courant inattendue en hiver ou en   t  .**

Intérieur sont des cellules de niveau automatique qui  
long et plus durable.

Puissance nominale : 1000W

Capacit  nominale : 932.4WH

Capacitã standard : 3,7 V/252 000 mAh

Protection contre les surcharges : 1040  $\pm$  30 W

## GL1000 25200mAh Capacity portable power station

- 12 output ports easily fit every charging scenario. Auto-Refrigerator, TV, phones, pads, laptops, drones, lights, projectors, game controllers, fans and more.
- 3 ways to recharge GL1000 indoor or outdoor: DC adapter, Solar panel, Car charging.
- A jump starter
- LED and SOS lights: very helpful and practical little feature in darkness or an emergency
- LED intuitively displays GL1000 working status: battery percentage, ports' output power, LED on/off, error code, very convenient for users to monitor GL1000.
- Pure sine Wave, safe and compatible with appliances

### Big Capacities:

|                      |                                    |
|----------------------|------------------------------------|
| Rated Power:         | 1000W                              |
| Rated Capacity:      | 912.4Ah                            |
| Standard Capacity:   | 3.7V/25200mAh                      |
| Overload Protection: | 1050±40V                           |
| AC Output:           | AC: 110V/30V/100Hz (28V/110V/50Hz) |

Don't have a clue what these numbers mean, let's make it more understandable:

- Laptop: 60W, 22 charging times
- TV: 150W, for about 15.5 hours
- Light: 10W, for about 252 hours
- Phone: 10W, 10 charging times
- Smart: 10W, 50 charging times
- Drone: 10W, 18 charging
- Auto: refrigerator 100W, about 25 hours

### 12 Output ports: (Output Mode: Pure sine wave)

Type-C Output: 100W X2  
USB-A Output: QC3.0/18W X2  
DC5525 Output: 14V/8A X4  
Cigarette Lighter (Jump starter) Output: 14V/5A  
Wireless Charging on top: 15W  
AC 110V-230V Plug Pure sine wave X2 (each with 1800W appliance)  
With GL1000, you can share power with friends and families

### 2 Input ports:

DC Charging input voltage: 12-30V / 150A Max  
Car Charging & Solar panel (not included)

### Package content:

- GL1000 power station X1
- Adapter X1
- Solar panel cable X1
- Car charging cable X1

Weight (Net Weight): 6.7kg  
Weight (Gross Weight): 10.7kg  
Working Temperature: -30~40°C  
Dimensions: 345\*227\*263 mm

Lumière SOS, Écran LCD

12 prises de charge rapide :

Type C PD60W \* 2

TypeA QC3.0 \*2

DC5525 14 V/8 A \* 4

Recharge sans fil : 15 W \*1

CA (onde sinusoïdale pure) \*2

Port allume-cigare 14 V/8 A \* 1

date création

19 décembre 2022
